## **Requirements to become a Registered SACGA Gas Practitioner**

Registration to become an authorized SACGA Gas Practitioner is based upon competence which is proof of Technical & Practical Qualifications and Experience in the gas industry for the gases and scopes been applied for.

The Applicant will need to:

- Meet the Pre-entry requirements as detailed on the application form.
- The application form can be found on either [www.saqccgas.co.za](http://www.saqccgas.co.za) or [www.sacga.za.org](http://www.sacga.za.org)
- Submit detailed Portfolio of Evidence (POE) technical and practical with the application form.
- Provide proof Digital CoC copy signed off by Mentor (mandatory) of the last 5 chronological gas projects for each gas systems/scope of work applying for with images (if possible).
- The Mentor needs to be a SAQCC Registered Gas Practitioner who is registered for the gas/s and scope of work you wish to be registered for and the mentor will assess your competence, under his supervision, and confirm in writing that he deems the applicant competent for the gas/s and scope of work being applied for. All this information shall be included in the application.
- If the applicant requires Design as part of his/her application, he/she will need to provide the following with the application:  
Detailed proof of competence is required for design. This will include but is not limited to:
  - Technical ability: i.e., Qualification.
  - Experience in calculating design criteria.
  - Knowledge of design standards applicable to the gas/s applied for.
  - Knowledge of applicable legislation.
  - Knowledge and ability to conduct HAZOP analysis.

Competence will be assessed by the SACGA Registration Working Group based upon the evidence submitted with the application, on a case-by-case basis.
