10 February 2025

For the attention of Registered / Licenced SACGA Gas Practitioners

In adherence to the mandate issued by the DoEL to SAQCC, SACGA is working towards the enhancement of your industry technical knowledge for the purpose of promoting safety in the workplace and the public.

To achieve this, the Board of the SACGA has determined that effective 01 January 2026, applications for Gas Practitioner Licence renewal shall require a proof of attendance of training related to SANS 10260-1 Industrial Gas Pipelines excluding Acetylene.

This mandatory requirement shall apply to all applications for installation, maintenance and repairs associated with the following gas groups:

Inert Gases
Oxidant Gases
Flammable gases excluding <i>Acetylene</i>
Food Gases
Beverage Gases
Laboratory Gases
*Special Gases

Planned training dates and locations for 2025 will be advised shortly.

The SACGA thank you for your continued commitment to the safety of our industry.

Best Regards

Gift Nyambe
SACGA Chairman
